Subject: Map showing location of equipment on state land
Attachments: Cactus Millsite staging area.pdf

Leslie,

I made a quick location map to go with the photos I just sent. If the BLMs land status layer is correct, the equipment in question appears to be located on state land.

I believe the legal description would be T. 7 S., R. 18 W., SW1/4 of sec. 36.

(See attached file: Cactus Millsite staging area.pdf)

thanks,

Stephen Allen
